

# Wheels with Attitude Dannevirke

## 3rd February 2013

by Coleen Francis

We have attended this car show for 6 years now and this drew the biggest number of cars yet. There would have been 200 - 250 cars on display, full to capacity.

There were cars of every description, trucks, stationary engines, stalls & people. No one car stood out as they are all someone's pride and joy. Unfortunately only 2 P76's made it this year: ours and new members Jamie and Steph

McFarland with their son Cory from Norsewood who have bought Ian Hunters car. Ian also came along and was pleased to see his car has gone to a good home. This was their first visit to this car show and we hope we see more of them at club events. As usual the P76's drew lots attention and some new folks to car shows are surprised to see them still around.

*<Left: The only car I photographed was this smart Mk2 Cortina, Stevie's favourite obviously. >*
